

CONSOLIDATED GOODS IN ONE SEA CONTAINER

Sourcing agency — goods consolidation from China

Worldwide

China

Retail

E-commerce

We consolidate goods from different manufacturers and suppliers, load them in a full container, and ship to you. All goods sold from one Chinese company — more cost-efficient with single customs procedures.

Project Details

- We are a Chinese trading agency in Yiwu City. We consolidate the goods from different manufacturers and suppliers and load them in a full container and ship to our clients.
- It's more cost-efficient because it will be shipped by full sea container and you do the customs procedures once. Or it can be sent by air freight also.
- We use our newly developed software so you will always know what's happening and have clear expense calculations.

What's Included

\$3,000

Steps for Completing Your Project

1

Share Your Requirements

Check our items assortment, choose categories, describe estimated quantities and your company.

2

Goods Description & Quantity

Send us what you want to order with estimated quantities.

3

Quotation Preparation

We source in our base or on the Yiwu market for new items.

4

Order Confirmation

We negotiate the full order and confirm the final order.

5

Contract & Prepayment

We prepare, negotiate, and sign the contract and you transfer the prepayment.

6

Order & Schedule Control

We order the goods and control delivery deadlines from each supplier.

7

Consolidation & Inspection

We consolidate, inspect, and send you a report for confirmation.

8

Shipment & Documents

We organize shipment, customs clearance, and prepare a full document package.

Frequently Asked Questions

Q: What categories of goods do you ship?

A: Goods that fit retail chains, e-commerce stores, etc. Household goods, tableware, automobile accessories, mobile phone accessories and more — non-food.

Q: How do you handle so many orders in one shipment?

A: We use our newly developed software so you will always know what's happening and have clear expense calculations.

Q: How do you charge for your work?

A: 7% of the invoice amount. Costs such as freight, customs clearance, export tax, etc. are included separately with a complete and transparent cost structure.

Not happy with the work?

We get paid when you approve the work. If dissatisfied, you can request a refund.
